

“A Real Spiritual Hospital on Earth: The Docs are In!”

My dear friends, I have been truly blessed to have the opportunity to visit the healing house of John of God in Brazil this May. My friend Kathy South started leading the healing tours to see this man from the states in 2009. I would like to share my experiences with all of you right from Brazil. I hope this testimony brings healing and hope to those in need or will consider this particular form of assistance from the spiritual realm.

I am not fond of the word “hospital” or “surgery” in my personal vocabulary, but this is part of the language of the entities that are performing the healings here. Before I arrived Brazil I was terrified by the word “entity”, as I have had negative experiences in the past with lower beings that just wouldn't leave me alone energetically. I had heard of the man John of God back in 2004, when my own healing journey actively began and I was desperate for any form of help that could bring me relief from my inner turmoil and agony at the time. Many years have gone by and now I am in a different place in my life. For the past year I have been having some persistent physical issues that are not responding to either mainstream or alternative treatments and modalities, so I began opening up to “trying something new” again and John of God is the “something new” I decided to try.

First of all, I am still a “newbie on the Brazilian healing block”, so I am sharing my experiences with all of you as I write and learn. The Casa de Dom Inacio is located about 1.5 hours from the capital of Brazil Brasilia, in a town called Abadiania. For one thing, if you don't care about geography until you actually get here like me, you need to know that this entire town is “run by entities”. Everyone who lives here knows the spiritual doctors are at work all the time if you are here in person, and it has its own sets of rules that are not what you are used to “at home”.

Surrendering to something you have never met, and then getting used to a whole town treating you as a “patient in a spiritual hospital”, with meal delivery three times a day to your room after a spiritual surgery has been performed is the “common theme” here. A spiritual surgery consists the following: you approach the entity, which is one of the spiritual doctors working through the medium, the doctor will decide if you need an operation for not. For most people who are here in person, you will have an operation. If the doctors scheduled a spiritual operation for you, then you will sit untouched in a room that is designated “for operation” for up to 20-45 minutes, and then it is done. You need to rest in bed for 24 hours afterwards.

People have come from all over the world for healing. My experience being at the Casa for one week is so far so EASY. This is the easiest healing I have ever experienced. For one thing, I am starting to worry who will still befriend me after this experience. I have witnessed and experienced the extraordinary. I can't ever go back to a mundane way of living and thinking after “living in a physical town that works with invisible spiritual doctors collaboratively 24/7”. There is no separation between human beings and spirit doctors at work here, which just feels normal for a lot of us who are already in tune with spirit. A lot of the healings that have taken place within me are subtle, meaning I knew it had happened and I have no words to really make it concrete for others, but I can definitely say that it is a miracle that I am here in person to receive this form of treatment from the spirit realm. I have asked for it, and it was granted and answered beyond my wildest measure.

Keep the faith my dear peeps! And if any of you want more info on John of God or being on a healing tour yourself to meet the Docs (distance healing can be performed also by sending your photo to the Casa), please contact my friend Kathy directly at Reiki Center of Greater Alexandria, or <http://www.reikialexandria.com> and see the Healing Tours page.

Lots of love from the wild and crazy little friend of yours,

Priya : -)))
